

The future

Would you like to live for 1000 years?	What might your mobile phone do in 10 years?
Are you optimistic or pessimistic about the future?	Would you like a car that drives itself?
What invention do you wish existed?	What do you think people will do for entertainment in the future?
Do you think people will work more or less in the future?	What do you think will be the big political issues in the next decade?
What laws do you think will change in the future?	If it was possible to time-travel, which time would you like to visit?
