

End of year review

What word would you use to describe this year?

What have you achieved this year?

What has changed for you since January of this year?

What did you find difficult this year?

What will you remember about this year?

If you could relive this year again, what would you do differently?

What are you doing for your winter holidays?

Do you have any new year's resolutions? (eg. *I'm going to exercise more*)

Do you have any predictions for next year?

What will you have done by this time next year?
